

Return to Office Covid-19 Patient Questionnaire

In order for you/your child to return to in-office visits at PTC we need to certify that:

1. Patient and anyone in household have no signs of a fever or a measured temperature above 100.3 degrees or greater, a cough or trouble breathing, or vomiting within the past 48 hours.

2. Patient and anyone in household have not had "close contact" with an individual diagnosed with COVID-19.

"Close contact" means living in the same household as a person who has tested positive for COVID-19, caring for a person who has tested positive for COVID-19, being within 6 feet of a person who has tested positive for COVID-19 for about 15 minutes, or coming in direct contact with secretions from a person who has tested positive for COVID-19, while that person was symptomatic.

3. Patient and anyone in household have not been asked to self-isolate or quarantine by a doctor or a local public health official.

4. Patient and anyone in household have not flown, or traveled outside of the New England states, or used public transportation in the past 14 days.
